

## The Logical Control Solutions e-Parts Website: lcseparts.com

A new, better way to purchase building automation parts and HVAC controls online.

**FREE SHIPPING ON ALL GROUND FREIGHT!**

Logical Control Solutions has taken another step in providing unique solutions for our clients in the creation of **lcseparts.com**. An online shopping site for building automation controls and HVAC parts from more than 140 of the industry's leading manufacturers. We have combined efforts with our many partners to develop a customer-focused site that will deliver the very best purchasing experience for all of your parts needs.

Here are just a few of our industry's most well-known and trusted brands that we offer:

BAPI is a premier sensor manufacturer specializing in sensors for temperature, humidity, pressure, wireless and air quality monitoring. Using the highest quality sensing elements, paired with state-of-the-art manufacturing and meticulous testing, and quality assurance procedures to ensure a reliable product time after time.

Setra Systems continues to design and deliver sensing devices for many diverse applications and industries. They deliver innovative solutions for HVAC & building automation, industrial OEM, testing and measurement of critical environments. They continually measure their standards and further develop innovative ways to do better.

As a system integrator, service provider and a product vendor, Siemens offers energy-efficient, safe and secure buildings and infrastructure. They are a leading provider of automation technologies, featuring a comprehensive portfolio of products for demand-based, efficient control of heating, ventilation and air conditioning plants.

Vaisala is a global technology and market leader, bringing operational benefits to their customers through a wide offering of products and services. They have decades of experience in building instrumentation for assessment of weather-related phenomena and the environmental conditions in industrial processes.
